

AMENDMENTS

Please amend the application as follows:

In the Specification:

Please amend the paragraph starting at page 3, line 11, as follows:

Fig. 2 is a block diagram illustrating the apparatus of the present invention in accordance with one embodiment. The apparatus comprises a technical writing tool 10 that is capable of being configured to generate a Standard Generalized Markup Language (SGML) and a conversion tool 20 capable of being configured to convert an SGML file into an HTML file. A suitable technical writing tool 10 for this purpose is Adobe® FrameMaker + SGML. It should be understood that tool 10 may also be logic that performs a technical writing algorithm or could also be a device for technical writing. A suitable SGML-to-HTML conversion tool 20 for this purpose is Web®Works Publisher Professional marketed by Quadralay Corporation. Both of these tools 10 and 20 are software computer programs running on a computer 30 and embodied on a computer-readable medium. The Adobe® FrameMaker + SGML program is capable of generating PDF files and can be configured to generate Standard Generalized Markup Language (SGML) files.

Please amend the paragraph starting on page 6, line 17, as follows:

It should be noted that although the present invention has been described with reference to particular embodiments, the present invention is not limited to these embodiments. Those skilled in the art will understand that modifications may be made to the embodiments discussed above that are within the scope of the present invention. For example, although the present invention has been discussed with respect to utilizing a particular technical writing tool to generate ~~[[and]]~~ an SGML file, those skilled in the art will understand that there may be other technical writing tools available that generate SGML files or other markup language files that therefore are suitable for use with the present invention.
